Executing Highly Complex Deepwater Offshore Projects

Hess has proven capabilities as an operator in deepwater offshore exploration, development and production, executing highly complex projects. The Stampede deepwater oil and gas field was discovered in 2005. Located 115 miles offshore Louisiana in approximately 3,500 feet of water, the asset is a key driver of our company's future growth.

And there is more to come. Discover Hess and our plans for the future at Hess.com

*Hess is operator and owns 25%; Union Oil Company of California, a Chevron subsidiary, Statoil and Nexen Petroleum Offshore USA Inc. each have a 25% working interest.
