

2019 Leadership Conference

TechExpo

ROOM A - EXTERNAL POSSIBILITIES

EXPONENTIAL WORLD

Introduction to the exponential pace of technology change

NEXT-GEN SCIENCE

Controlling physical and chemical properties of fluids in novel ways

MECHATRONICS

Using hardware that moves for surveillance, transportation, or control

AUGMENTED FIELD

Adding context (data, procedures, remote coach, drawings) to your field of view

VIRTUALOSITY

Changing your field of view to be a virtual or immersive facsimile of the real world

ROOM B - INTERNAL PROGRESS

EXPERIMENT / LEARN / ADAPT

Introduction to the Hess Technology Group and pilots in progress

AUTONOMOUS FIELDS OF THE FUTURE

Progressing to operations that require less and less physical interaction

10X WELL & RESERVOIR PRODUCTIVITY

Dramatically increasing production from existing/future wells and reservoirs

PREFERRED PARTS PARTNERSHIP

Disrupting supply chain with just-in-time parts redesign, printing, and delivery

DATA IS NEW OIL

Unlocking dark or siloed data for better decisions and faster insights
