About Hess

Hess is transforming from an integrated oil and gas company with downstream operations into a focused, higher growth, lower risk, pure-play E&P company. When the announced divestitures are completed, we will become a leading global independent energy company engaged in the exploration and production of crude oil and natural gas.

We operate primarily in five major areas of the world where we have extensive knowledge and experience: Gulf of Mexico, North Sea, West Africa, Asia Pacific and onshore U.S. In America we are a leader in shale oil and gas production and one of the largest operators in the Bakken formation, North Dakota.

Hess aims to attract, retain and energize the best people by investing in their professional development and providing them with challenging and rewarding opportunities for personal growth. We seek smart people who are innovative, share our values and want to make a meaningful difference in the world and in their careers.

We are committed to meeting the highest standards of corporate citizenship by protecting the health and safety of our employees, safeguarding the environment and creating a long-lasting, positive impact on the communities in which we do business.
