About Hess

Hess is a leading global independent energy company engaged in the exploration and production of crude oil and natural gas.

We have a world-class portfolio of assets with industry-leading margins and visible growth in areas where we have proven technical capabilities: Asia Pacific, the Gulf of Mexico, the North Sea, onshore U.S. and the West Africa conjugate margin. We are a leader in the production of shale oil and gas, and one of the largest operators in the Bakken formation, North Dakota. We are also known for our expertise in the development and production of projects in deep water offshore.

Hess aims to attract, retain and energize the best people by investing in their professional development and providing them with challenging and rewarding opportunities for personal growth. We are always looking for talented professionals who share our values and are passionate about making a difference in the world and in their careers. We strive to meet the highest standards of corporate citizenship by protecting the health and safety of our employees, safeguarding the environment and creating a long-lasting, positive impact on the communities where we do business.
